

Spring 2012

Dear Friends of ASAP,

24,901.

The number of miles around the Earth and the goal of ASAP's first annual *Circle Our World With Love* campaign. From May 1st to September 30th, together let's circle the world with compassion, while having fun and raising funds to help less fortunate families become self-reliant. Please register a walk, jog, run, swim, crawl, bike-ride, paddle, gallop, trot - you name it - for A Self-help Assistance Program.

Not a fund raiser? Don't worry! ASAP will help promote your event. Your well-wishers will support your efforts by giving securely on line. No sponsorship forms or collecting contributions—it's fast and easy. All you do is come together with your friends and family this summer and cover a few miles for ASAP. [Click here](#) to learn more.

The idea started when Pat Bannon from Leeds England registered a 212 mile bicycle challenge for ASAP this September. Pat's ride will take him through the heart of the French Alps, tackling the toughest mountain climbs made famous by the Tour de France. We challenge you to follow his lead and make a difference this summer. To learn more about Pat's adventure [Click here](#). To donate to Pat's trek [Click here](#).

Remember, every mile counts. Your good intentions and motivation to help make the world a better place are truly powerful. So as you are making plans for this summer, please put a few hours aside for ASAP. Prizes will be awarded in November and special recognition will be given to all participants. Please help us make ASAP's first annual *Circle Our World With Love* campaign a great success.

As always, we send out big thanks to all of you who continue to support ASAP—making our work possible. If you volunteered, donated directly, in-kind, through your [Combined Federal Campaign](#) Aid for Africa Federation, [EBay Giving Works](#), [Africa Direct](#), [Global Giving](#), or sent prayers - your generosity and interest in our efforts is appreciated. Together we'll continue to create a future full of self-reliance, dignity and hope for less fortunate families. Thank you.

Sincerely,

Elizabeth Bara and all of us at ASAP
